OFFICE OF THE COMPTROLLER

WEEKLY REPORT FOR THE DCI

FY 1984

- A copy of OMB's 2 July memo on controlling year-end spending was forwarded to the Deputy Directors and AO/DCI for information and appropriate action. The Comptroller stressed the importance of completing FY 1984 actions on a measured and timely basis.

FY 1985

- As you know, our intelligence oversight committees have reduced our 1985 manpower request by [] positions. Three alternatives accommodating this reduction have been produced by this office and forwarded to all four Deputy Directors for their consideration. Given congressional concerns about our manpower growth, the Deputy Directors were also asked to consider whether this reduction should be carried into the 1986 program.

FY 1986

- At the request of [] Director, Program and Budget Staff, IC Staff, briefings have been scheduled for Tuesday, 24 July and Wednesday, 25 July on several issues in the 1986 program.

Other

- Five GAO staffers came for the second time to discuss year-end funding [] (in particular transfers to the DDI to support external analysis). We made available to them the financial files at our disposal and copies of the Agency's relevant regulations. They read everything, copied nothing, and agreed to allow us to classify their notes if necessary. They will return on Tuesday to read some documentation that we did not have available at the time. They did not read the product of the external analysis that was funded. At this point they are quite impressed with our financial recordkeeping. They are particularly interested in appropriate certifying signatures and the dates on which contracting activities took place.
